SECTION 2: BACKDUES BASED ON YEAR BEGAN FARMING

To be fair and equitable to founding members enrollment fees include backdues and interest for all years farmed. Support of existing members since 2004 has enabled the Coalition to operate and remain in compliance with current water quality regulations. Fairness to these founding members dictates that new members need to pay their full share to join the Coalition. Contact us if you began farming prior to the dates available or farmed a different number of acres in different years and we can assist you.
